Why do you love SJE?... As a former student of Saint John the Evangelist myself, I have always loved how close and united the entire school community is. The relationship between teachers and students/families make each child's learning experience unique and individualized. I feel blessed to be able to come back to SJE as a teacher in such a supportive environment.

How do you go above and beyond?... I go above and beyond by ensuring that each student has a differentiated learning experience. I want to be a guide for each child to grow in all aspects of their learning experience. I want to make sure that each child is learning according to their individual abilities!

How do you make learning fun?... I believe that the basis of a young child's education begins through their play experiences with their environment and with their peers. I encourage social-emotional learning and real-world experiences to help guide each child to success in their academics.
