I love SJE... because we not only get to incorporate our love for God but we get to teach and instill that love within our school community.

We go above and beyond... I have never seen a more dedicated group of professionals than here at SJE. They have helped my girls and I feel so welcomed and cared for.

Learning is Fun... I love anytime I can make a lesson hands on. In fifth grade the students love to make different types of Native American houses for US history, report to the class about early explorers, and map the Civil War battles.
