I love SJE... I love SJE because it feels like home! I love the warmth and family-like support everyone gives one another. I always look forward to the smiles, hugs and high fives from my students.

Learning is Fun... I enjoy educational activities, songs, and building healthy relationships with my students. I love to see their creativity and insight on learning a different language. I give my students a safe place to make mistakes and therefore are more willing to participate and take risks.
