I love SJE...I am honored to be a part of the SJE staff and family! The students are SO driven to learn more and achieve their personal best which I find to be very admirable. The staff is very supportive and the community here is incredible.

We go above and beyond...I bring a deep commitment to service students as the Dean of Students, and to fulfill the mission of SJE. Students will spend these next few years growing physically, spiritually, emotionally, and academically and I will be alongside them for support. I am excited to unite my experience, my dedication to students, and my openness to learn to guide the success of the whole child.

Learning is Fun...In education, every single day is different and a new opportunity to learn and grow! What could be better?
