I love SJE... I love SJE is an understatement! The way that the children and staff have welcomed me with open arms, truly touches me. When I see faces in the hallways that call out my name just to say "Buenos Dias Ms. Tapia!" makes me one happy Spanish teacher. The staff has shown me unconditional support and guidance throughout my transition in this school as a new teacher. I can honestly say I have found my happy place!

Learning is Fun... I enjoy educational activities, songs, and building healthy relationships with my students. I love to see their creativity and insight on learning about a different language. Recently, my fifth and six grade classes were asked to find a Spanish speaking country and to replicate the flag. This helped them explore differences in culture and language with a fun activity. They really enjoyed, not only showing me, but the school their talents and creativity since they are displayed in my classroom for everyone to see.
