MA of Education in Curriculum and Instruction Olivet Nazarene University

I love SJE... because it is such a warm, welcoming, faith-filled community of learners and staff!
As an active parishioner, joining the school staff as a teacher brings such a fullness to my faith life, and will allow me to foster a love of Jesus in all the students I have the honor to teach.

We go above and beyond...by not only providing a strong education to all students, meeting each where they are, but also developing a strong faith, and love of Jesus through daily learning and activities.

Learning is Fun... because each day presents an opportunity to expand and grow academically, and as a child of God. I'm excited to have the opportunity to inspire my students to become curious, courageous and compassionate individuals.
